

TOPIC (exact wording): _____

USE THIS SECTION FOR A POLICY MOTION ONLY

1st AFFIRMATION

Framing Debate

Type: Fact, Value, Policy
Judging Crit/Weigh Mech: net benefits, preponderance of evidence, greatest impact, least cost 4 most benefits, utilitarianism, moral imperative
Definitions/History – define key words

1st NEGATION

Framing: Agree or Disagree: with what part and why?

Definition Problems – Give better def and explain why

2nd AFFIRMATION

If they agree w/ Framing, move on. If not, discuss why YOUR framing is correct and the NEG's is not – After this, move to NEG case.

2nd NEGATION

If still arguing over Framing, explain your position and why it is fairer, meets resolution better etc.

If **POLICY** debate & no plan, you win. If it has a plan, attack plan: doesn't solve harms (solvency), status quo already does it (inherency), creates more disads, has a funding disad
1.

Answer POLICY plan attacks. Skip this if it is a fact or value debate

- 1.
- 2.
- 3.

Show why AFF's rebuilding of the plan doesn't work – don't repeat; **EXTEND**

- 1.
- 2.
- 3.

If a **POLICY** debate, here is plan:
Mandate/Action you will take

Agent/Actor/Enforcer – Who will put mandate into effect

Funding – a new tax, from general budget, issue bonds, Other:

Timeline – how long to implement

AFF Case – Circle: we have harms, contentions, benefits, claims, or advantages

1. **Claim:**
Warrant & Evidence:

Impact

Attack AFF case – Use examples, analysis, logic – Always show **IMPACT**

Attack Claim #1

Impact

Extend & rebuild AFF case – show NEG analysis wrong, doesn't apply. Note dropped arguments
Rebuild #1

Extend (don't just repeat) attack AFF arguments – note arguments dropped

Extend NEG arguments on #1

REBUTTAL FOR AFFIRMATION

No new arguments in Rebuttal, but new analysis/evidence OK
Don't go down the flow—change it
Remind judge of judging criteria and how, based on this, you win
Any over-arching observation:

Voting Issues – Highlight for judge one of these: the arguments you won, the net benefits you have, the IMPACTS you gain etc. Should have about 3
1st Voting Issue

2nd Voter

3rd Voter

Discount their voting issues

Weighing the KEY arguments: what would happen in their world vs. our world, the "even if" argument etc. What NEG gets us – THEIR world

What AFF gets – OUR world
